Sunspots Safaris has put together one of the best collections of Free Range Private land hunts in the Country. Chris McCarthy of Lake Hawea Hunting Safaris has made a name for himself in the Free Range hunting circles by getting his clients

into some of the best private locals in the South Island of New Zealand. Based in Wanaka, just a short 1 hour drive from Queenstown, this location gives Chris access to utilize 6 different private tracks of land to host this Super Safari. If you're the hunter that likes to pull the trigger this hunt will suit you

incredibly well. While producing four top Trophies in the Free Range Red Stag, Himalayan Bull Tahr, Trophy Buck Chamois and a Wild Boar hunted over dogs, this hunt also includes many additional meat and cull animals as well. South Pacific Goats, Wallabies, Rabbits Hares, Red Deer Hind, Fallow Deer does and Nanny Tahr make up a list of almost 20 Medium sized game animals and 4 world class trophies all included at one great price. Bring lots of ammunition and extra memory cards for your digital camera because not only is this hunt taking place in one of

the most scenic locales in the world used recently as a backdrop in the trilogy series of "The Lord of the Rings", but with over 20 animals per hunter and 13 days in the field there will be many photo opportunities.

The hunt is set up on a priority basis so we start with the trophy that is the most important to the hunting party and work our way down the list. This hunt was designed to be as far away from the "Safari Park Canned hunt" as possible and to showcase New Zealand's incredibly liberal bag limits.
