There is one thing that New Zealand has no shortage of and that is huge red deer! For those of you who have seen the television shows know what outrageous antlers these animals produce season after season. The reality

is that not all of these trophy animals get shot! That means they cast their antlers every year just like our North American deer and elk. From the middle of August to the last part of October there is an incredible opportunity to collect some of these antlers for your trophy room at a fraction of the cost of actually shooting the huge red stag.

Currently our Gold medal Red Stag hunts go for around 8,000.00 to 9,000.00 dollars including airfare

and accommodations. This package allows you to come back with a variety of shed antlers from some of these big bruisers for a fraction of the cost.

We will have you out hiking and glassing daily for these unique trophies that are plentiful in the Game estates that we will be guiding you on. In addition to the Large Red Stag there will also be an opportunity to collect Fallow stag shed antlers as well.

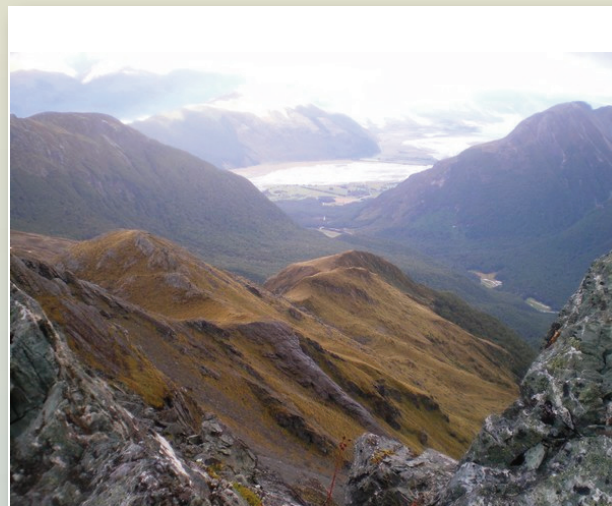

In addition to the shed hunts there will also be opportunities to hunt for Big Game Trophy animals such as Himalayan Bull Tahr, Chamois, Wild Boar, Arapawa Rams and South Pacific Goats.

This Package will also include complimentary Small Game hunts for Possums rabbits and hares.

If you are after a professional hunting outfit then you've found it! Lake Hawea Hunting Safaris is it! They offer the very best free range hunts on private exclusive ranches though out the South Island.

We have put together some incredible packages that offer a tremendous value for money.

The above hunt packages are designed to be all-inclusive leaving out only Taxidermy and expediting costs and New Zealand firearms permit application fee of 25.00 NZD To Book your hunt dates requires only a \$500.00pp Non Refundable deposit.
